**Appendix to report No. GRS2017-011197**

This vividly saturated emerald of 1.10 ct is reminiscent in hue of the varieties displaying the legendary colors found in the world renowned Muzo mines. They are formally described as “Muzo Green” (*) and commonly known in the trade as “Old Mine” emeralds.

A blue ink signature, appearing to be 'A. Peretti', written in a cursive style.

Dr. A. Peretti
Director GRS

This appendix indicates the specific quality and color for emeralds from various Colombian mines; however, it does not specify from which particular mine they were found.
