seven business days.

The gemstone described in this Identification Report ("Report") has been identified, authenticated,
graded, tested, analyzed, examined and/or received by International Gemological Institute (IGI).
IGI employs and utilizes those techniques and equipment currently available to IGI, including,
without limitation, its magnification, corrected light input, stereo zoom binocular microscope,
refractometer, spectrometer, polariscope, non-contact optical measuring device, and such other
instruments and/or processes as deemed appropriate by IGI. This Report includes advanced
security features. A duly accredited gemologist or jeweler can advise you with respect to the
importance of and relationship between only color, clarity and carat weight.
